Task 3
Hello everyone,
Only way to learn flutter is by practicing it on your own!
Based on the recent webinars we had, here is the Third task for you, which will help build a firm foundation.
Now that you have built a baisc layout and have added interactivity to it✦ ̇ it time for you to add more features to it.

⧠♂ Tasks
1. Create Field for the user to enter their name.

You can use:

https://medium.com/flutter-community/flutter-a-guide-on-textfield-ab62ef2e7654

2. Create a Button called "set" it shall take the value from text field and replace it with your profile name below the image.

3. Upon Tapping the route icon SAKEC website should open in chrome browsers.

Hint 💡: pubspec
"You want to launch a url."

Although this may not be covered in webinar, but shall help you learn how and where to look for, in order to get something done in flutter.

Likewise your previous tasks create apk(Release) and upload it on your today's daily report.
